### Mentoring Programme – Workplace Visit (Hong Kong International Airport)

A Workplace Visit was successfully held on April 11, 2017. On that day, 36 students from Form 3 to Form 5 visited the Hong Kong International Airport in Chek Lap Kok. The visit consists of a presentation on HKIA, a look at the exhibition about the airport's current and future development, and a tour of airport facilities.

During the visit, a representative of the HKIA delivered a presentation to our students. It was about HKIA's role as a gateway to the world, its contribution to the sustainable growth of Hong Kong's aviation industry and economy, its daily operations, its future development plan, and employment opportunities. Students will also relish the opportunity to learn more about all the green initiatives that have been implemented at the airport, eg. Energy and Carbon Management such as electric vehicles, Waste Management such as food waste and recycling.

Also, students had a chance to visit the Skydeck in Terminal 2 and the carpark for the electric vehicles. The visit provided a chance for students to broaden their horizons on the nature of the aviation industry.
