AIM:

The 3-3-4 education reform puts more emphasis on Other Learning Experience (OLE). One constituent of OLE is Career-Related Experiences. To help our current students learn more about the working world and to help them start thinking about their goals in life, we have a MCareers Programme open to free participation for our Form 4 to Form 6 students.

REPORT:

In this year, Due to the pandemic and social situation, some activities have been cancelled. MCareers Programme ran 3 school-based events: MCareers Alumni Sharing (Law Field), MCareers Zoom Mock Interview and Zoom Careers Counselling for DSE students.

Although the mock interview was held online, it still enriched us by offering a real-life and practical experience.

Firstly, by dividing us into different groups according to our preferred faculty choices, the format and context of the interview can be more specific and relevant to our interested programmes. As a result, we can be more familiar with the question types and formats that we may likely encounter in the real interview.

Moreover, interviewers are professionals who are working in different fields currently. Therefore, practical advice and personal experience were shared with the participants which can let us gain more knowledge of the industry as well as handy tips for the interview.

Last but not least, as most university interviews are held online this year, the online mock interview provided us with a chance to practise our manner, attentiveness and body gesture in front of the camera. Therefore, we can be well prepared for the online interview.

In short, it is recommended to engage in the mock interview as a way to have a final preparation before the university interview by obtaining practical advice and real-life

interview experience.
